

Builders for Christ

Update from
Immanuel Lutheran School, Hutchinson, MN

December 30, 2023

Hi Volunteers,

Two Jeff's and I returned to Immanuel on Thursday to finish up a few things. We did what we could to complete the bathroom partitions. We still didn't have some of the right parts but we made them usable for now.

We rehung the last two doors that the painter had taken off. The hurricane door for the conference room/storm shelter still has not arrived but it is not essential to having school there.

I feel so blessed to have been able to work with all of you to help this school get built. God is Good!

In His service, Elwood

I think the classroom to the left above is the early childhood room. It's the one with the washer and dryer closet and a common bathroom with the next classroom (on the right).

Looking closely at the lobby ceiling you can see three different levels of ceiling tile which, I believe, is to give cloud affect. It may have some sound abatement also.

This is a picture of the secretary's office.

Here is the principal's office.

I thought the view down the long hallway was awesome.

Look at the plate of cookies on the Kitchen/Concessions counter. They were there to treat the large group of cleaning volunteers who were busy getting ready for starting school in the new facility January 8.

Sunday, January 7th at 2:00pm.

Members of Immanuel are hosting an Open House and brief Dedication Service prior to their first day in the new building. BFC volunteers have been invited to attend!
